- Basic Mathematics
- Economics
- Indonesian and World History
- Geography
- Sociology

SIMAK UI

ENTRANCE TEST UNIVERSITAS INDONESIA 2016

GENERAL INSTRUCTIONS

- Before you begin work on the test, check the number of questions and the page numbers in the test booklet.
 The booklet consists of a front page, a general instructions page, an answer sheet, and 10 question pages.
- The answer sheet attached to this booklet can only be used for this test booklet. If you need a new answer sheet, you should use the test booklet which the answer sheet was attached.
- 3. You have to take the answer sheet from the test booklet. If the top left of the answer sheet is damaged or torn, the answer sheet still can be processed.
- Write your student test number on the space provided in the answer sheet.
- 5. Read carefully each and every instruction on how to answer the questions.
- 6. Think carefully before answering every question, because an incorrect answer will deduct 1 point from your total score (scoring system: correct +4, blank 0, incorrect -1).
- 7. Work on questions you find easy first, then continue with harder questions.

- 8. Write your answers on the answer sheet provided.
- 9. Since scrap paper is not provided, you can make use of the empty space in your test booklet to do calculations. **Do not use the empty space on your answer sheet**.
- 10. During the test, you are not allowed to ask or seek explanation about the questions being tested to anyone including the test supervisor.
- 11. When you have finished doing the test, you are required to stay in your seat until the test supervisor approaches you to collect the answer sheet.
- 12. Make sure the answer sheet is not dirty, wet, folded, and torn.

SPECIFIC INSTRUCTIONS

INSTRUCTION A:

Choose the best answer.

INSTRUCTION B:

Each question consists of 3 parts, i.e. STATEMENT, CAUSE, and REASON that are arranged in sequence. Choose:

- (A) If the statement is correct, the reason is correct, and both show a cause and effect relationship.
- (B) If the statement is correct, the reason is correct, but both do not show a cause and effect relationship.
- (C) If the statement is correct and the reason is incorrect.
- (D) If the statement is incorrect and the reason is correct.
- (E) If the statement and the reason are both incorrect.

INSTRUCTION C:

Choose:

- (A) If (1), (2), and (3) are correct.
- (B) If (1) and (3) are correct.
- (C) If (2) and (4) are correct.
- (D) If only (4) is correct.
- (E) If all of them are correct.

S2 S3

SUBJECTS Basic Mathematics, Economics, Indonesian and World History, Geography, and Sociology

EXAM DATE 29 MAY 2016 120 MINUTES TIME

NO. OF QUESTIONS 75

Notes Questions on BASIC MATHEMATICS

numbers 1 to 15 Questions on ECONOMICS numbers 16 to 30 Questions on INDONESIAN AND WORLD HISTORY numbers 31 to 45 Questions on GEOGRAPHY numbers 46 to 60 Questions on SOCIOLOGY numbers 61 to 75

BASIC MATHEMATICS

Use Instruction A to answer questions number 1 to 12.

- 1. If x satisfies $\sqrt[3]{x+7} \sqrt[3]{x-7} = 2$, then x^2 lies between
 - (A) 15 and 25
 - (B) 25 and 35
 - (C) 35 and 45
 - (D) 45 and 55
 - (E) 55 and 65
- 2. If x = 0.111... and $y = \sqrt{72 + \sqrt{72 + \sqrt{72 + ...}}}$, then $x \log y + y \log x =$
 - (A) 2
 - (B) 0
 - (C) -1
 - (D) -2
 - (E) -3
- 3. The difference of integer roots of $x^{2} + 2(m+5)x + (100m+9) = 0$, such that m is the smallest possible natural number, is
 - (A) 0
 - (B) 2
 - (C) 4
 - (D) 8
 - (E) 16
- 4. If $x^2 + xy + y^2 = 91$ and $x + \sqrt{xy} + y = 13$ for x > y, then $x - y = \dots$
 - (A) 3
 - (B) 7
 - (C) 8
 - (D) 9
 - (E) 10

- 5. The value of *x* satisfying $-1 \le \frac{2^2 \log (4x+2)}{x^2 2x + 4} \le 2$ is
 - (A) $x < -\frac{1}{2}$ atau $-1 \le x \le 3$
 - (B) $-\frac{1}{2} \le x \le 1$ atau $x \ge 3$
 - (C) $-\frac{1}{2} < x \le 1$ atau $x \ge 3$
 - (D) $-\frac{1}{2} < x \le 3$
 - (E) $-\frac{1}{2} \le x \le 3$
- 6. If $x + 2y \ge 29$, $y x \ge 7$, $y \ge 2$, and $x \ge 5$, then the minimum value of 3x - y is
 - (A) -7
 - (B) -2
 - (C) 3
 - (D) 33
 - (E) 73
- 7. Given a sequence of integers which form an arithmetic sequence. The sum of first 4 term is 60, while the sum of the last 4 term is 124. If the value of the first term is equal to the number of terms in the sequence, the greatest value of $u_1(u_3 - u_2)$ is
 - (A) 20
 - (B) 22
 - (C) 24
 - (D) 26
 - (E) 28

8. Suppose A and B are 2×2 matrices that satisfy

$$A+B=\begin{bmatrix}1&2\\3&4\end{bmatrix}$$
 and $A-B=\begin{bmatrix}3&-2\\-1&4\end{bmatrix}$, then $A^{-1}B^T=$

- (A) $\begin{bmatrix} \frac{1}{2} & \frac{5}{4} \\ 2 & 1 \end{bmatrix}$
- (B) $\begin{bmatrix} \frac{1}{2} & 0 \\ -\frac{5}{8} & \frac{1}{4} \end{bmatrix}$
- (C) $\begin{bmatrix} -\frac{1}{2} & 1\\ \frac{5}{8} & -\frac{1}{4} \end{bmatrix}$
- (D) $\begin{bmatrix} 0 & \frac{1}{4} \\ \frac{5}{8} & 0 \end{bmatrix}$
- (E) $\begin{bmatrix} 0 & \frac{1}{2} \\ \frac{1}{2} & \frac{1}{4} \end{bmatrix}$
- 9. At the beginning of a semester, there are 60 people who signed up for a computer class. However, there will be only 2 classes, with capacity of 20 people each. Among these 60 people, including Milzam and Ghozi, will be randomly selected for taking the class. The probability of Milzam and Ghozi having the same class is
 - (A) $\frac{19}{177}$
 - (B) $\frac{38}{177}$
 - (C) $\frac{2}{9}$
 - (D) $\frac{19}{59}$
 - (E) $\frac{38}{59}$
- 10. Consider an equation of the form $ax^2 + bx + 1 = 0$. If a and b are selected from the set of integers -3, -2, -1, 0, 1, 2, 3, the number of equations that have real roots is
 - (A) 22
 - (B) 27
 - (C) 32
 - (D) 33
 - (E) 34

- 11. If a and b are two numbers (not necessarily distinct) selected at random with replacement from the set $\{1, 2, 3, 4, 5\}$, then the number of the division $\frac{a}{b}$ with remainder 1 is
 - (A) 5
 - (B) 6
 - (C) 7
 - (D) 8
 - (E) 9
- 12. Points A, B, C, and D lie on a line, in that order, with AB = CD and BC = 12. Point E is not on the line and BE = CE = 10 and AE = DE. The perimeter of AED is twice the perimeter of BEC. Area of ADE is
 - (A) 64
 - (B) 72
 - (C) 120
 - (D) 240
 - (E) 270

Use **Instruction C** to answer questions number 13 to 15.

- 13. If f is a linear function and f(f(x) + 4) = 4x 4, then
 - (1) f(0) = -4
 - (2) f(1) = -6
 - (3) f(0) + f(1) = -6
 - (4) f(0)f(1) = 24
- 14. Suppose $f(x) = \frac{4x^2 1}{2x 1}$ and g(x) = 2x + 1, a TRUE statement about these two functions is
 - (1) f(x) = g(x)
 - (2) f(x) defined for all real numbers except $x = \frac{1}{2}$
 - (3) g(x) defined for all real numbers except $x = -\frac{1}{2}$
 - (4) f(x) + g(x) defined for all real numbers except $x = \frac{1}{2}$
- 15. The data consists of 5 natural numbers have a range of 18, mean 12, median 8 and mode 8. If the data is arranged in increasing order, then from all the possible data values that satisfy, the mode may appear in the ...-th position.
 - (1) 1
 - (2) 2
 - $(3) \ 3$
 - (4) 4

ECONOMICS

Use Instruction A to answer questions number 16 to 24.

- 16. When demand is inelastic, the price elasticity of demand is ...
 - (A) less than 1, and price and total revenue will move in the same direction.
 - (B) less than 1, and price and total revenue will move in opposite directions.
 - (C) equal to 1, and price and total revenue will move in the same direction.
 - (D) greater than 1, and price and total revenue will move in the same direction.
 - (E) greater than 1, and price and total revenue will move in opposite directions.
- 17. Indifference curve indicates ...
 - (A) the same amount of budget.
 - (B) the same satisfaction of all consumers.
 - (C) the same satisfaction of a consumer.
 - (D) the same consumption level.
 - (E) the same marginal utility of a consumer.
- 18. The marginal cost curve is ...
 - (A) downward sloping.
 - (B) upward sloping.
 - (C) U-shaped.
 - (D) horizontal-shaped.
 - (E) intersecting at minimum point of average fixed cost curve.
- 19. Monopolistic competition differs from perfect competition because in monopolistically competitive markets ...
 - (A) there are barriers to entry.
 - (B) all firms can eventually earn economic profits.
 - (C) each of the sellers offers a somewhat different product.
 - (D) strategic interactions between firms is vitally important.
 - (E) faces a horizontal demand curve at the market clearing price.

- 20. The following factors affect consumption expenditure, EXCEPT ...
 - (A) market structure.
 - (B) interest rate.
 - (C) income level.
 - (D) government policy to reduce income inequality through tax and subsidy.
 - (E) pension fund and social allowance programs.
- 21. To control inflation rate, the government conducts a fiscal policy which is ...
 - (A) contractionary through increasing tax rate.
 - (B) contractionary through increasing subsidy.
 - (C) contractionary through increasing interest rate.
 - (D) expansionary through increasing subsidy.
 - (E) expansionary through increasing interest rate.
- 22. Which of the following is NOT included in GDP?
 - (A) Unpaid cleaning and maintenance of houses.
 - (B) Services such as those provided by lawyers and hair stylists.
 - (C) The estimated rental value of owner-occupied housing.
 - (D) Production of foreign citizens living in your country.
 - (E) None of the above is correct.
- 23. At January 2, 2013, Dunia Company received a year zero-interest-bearing Rp10,000,000.00 trade note. The market rate for equivalent notes was 8% at that time. Dunia reported this note as a Rp10,000,000.00 trade note receivable on its 2013 year-end statement of financial position and Rp10,000,000.00 as sales revenue for 2013. What effect did this accounting for the note have on Finney's net incomes for 2013, and 2014?
 - (A) Overstated and overstated.
 - (B) Understated and overstated.
 - (C) Ovestated and understated.
 - (D) Understated and no effect
 - (E) Overstated and no effect

© 2016 Universitas Indonesia Page 3 of 10

- 24. The Full Moon financial statements for the years ended December 31, 2015 contained the following errors. Ending inventory overstatement Rp30,000,000.00, Depreciation expense understatement Rp6,000,000.00, By what amount will 2015 income before income taxes be overstated or understated?
 - (A) Rp36,000,000.00 overstatement.
 - (B) Rp36,000,000.00 understatement.
 - (C) Rp24,000,000.00 overstatement.
 - (D) Rp24,000,000.00 understatement.
 - (E) Rp6,000,000.00 understatement.

Use Instruction B to answer questions number 25 to 27.

25. If the demand for a product decreases, we would expect equilibrium price to increase and equilibrium quantity to decrease

BECAUSE

if the supply of a product increases, we would expect equilibrium price to decrease and equilibrium quantity to increase.

26. A monopoly's marginal cost will be less than the price per unit of its product

BECAUSE

a monopoly's total revenue will always increase when it increases the price of its product.

27. Increasing money supply creates inflation

BECAUSE

if inflation occurs, real income decreases.

Use Instruction C to answer questions number 28 to 30.

- 28. The following statement(s) is/are CORRECT with regard to production theory.
 - (1) Producer equilibrium is attained when the demand curve intersects the supply curve.
 - (2) If the number of workers increases, ceteris paribus, output level will continuously increase.
 - (3) Vertical and horizontal axis of isocost measure the cost and the quantity of goods produced.
 - (4) When the total product reached its maximum level, the marginal product is zero.

- 29. Which of the following statements regarding a competitive market is (are) false?
 - (1) By lowering its price below the market price, the firm will benefit from being able to sell more units at the lower price than it could have sold by charging the market price.
 - (2) If a firm raises its price, the firm may be able to increase its total revenue even though it will sell fewer units.
 - (3) Because of firm location or product differences, some firms can charge a higher price than other firms and still maintain their sales volume.
 - (4) Since demand is downward sloping, if a firm increases its level of output, the firm will have to charge a lower price to sell the additional output.
- 30. The factor(s) that determine(s) economic growth of a country are ...
 - (1) quantity and quality of population.
 - (2) entrepreneurship.
 - (3) land and natural resources.
 - (4) capital goods and technology.

© 2016 Universitas Indonesia Page 4 of 10

INDONESIAN AND WORLD HISTORY

Use Instruction A to answer questions number 31 to 39.

- 31. Which of the following is a prominent figure in the Dutch Colonial Government in Indonesia in the early 21st century ...
 - (A) Stamford Raffles.
 - (B) Herman Willem Daendels.
 - (C) Jan Willem Janssens.
 - (D) Vander Capellen.
 - (E) Johannes Van Den Bosch.
- 32. The factor that attributed to the success of ISDV in infiltrating the SI was...
 - (A) the weak power of CSI.
 - (B) the strong influence of SI local leaders.
 - (C) the party that did not allow dual membership.
 - (D) local SI acted independently.
 - (E) ISDV was more desirable than SI.
- 33. The reason behind the withdrawal of Indonesia from the United Nations in 1965 was...
 - (A) the rejection of Retooling by the UN.
 - (B) the imperfection of the UN.
 - (C) the dispute with Malaysia.
 - (D) the dissatisfaction over the UN performance.
 - (E) the non-involvement of Indonesia in the UN security forces.
- 34. For the purpose of propaganda, the Japanese Occupation Government established an institution as a cultural centre called ...
 - (A) Sendenbu.
 - (B) Hodokan.
 - (C) Kaikyo Seinen Teishintai.
 - (D) Keimin Bunka Shidosho.
 - (E) Fujinkai.
- 35. After President Tito died in 1980, the Socialist Federal Republic of Yugoslavia began to lose power. The states declared independence one after the other including...
 - (A) Slavia
 - (B) Georgia
 - (C) Slovenia
 - (D) Slowakia
 - (E) Albania

- 36. The 1990-1991 Gulf War between Iraq and Iran engaged several European countries such as...
 - (A) Netherlands, Germany, and France
 - (B) Germany, France, and English
 - (C) France, England, and Italy
 - (D) Inggris, Luxenburg, dan Rusia
 - (E) Germany, France, and England
- 37. The country that experienced rapid development and was able to compete with America and European countries after World War I is...
 - (A) South Korea
 - (B) Cina
 - (C) Jepang
 - (D) North Korea
 - (E) Turkey
- 38. The rebellion to expel the western power that undermined the Chinese empire in the twentieth century is known as ...
 - (A) Taiping Rebellion.
 - (B) Boxer Rebellion.
 - (C) Kuomintang Rebellion.
 - (D) Kuochantang Rebellion.
 - (E) Tianjin Rebellion.
- 39. The declaration of the British Government that supported the Zionist movement to reclaim the land of the Palestine in 1917 is known as the declaration of...
 - (A) Potschild.
 - (B) Weizmann.
 - (C) Balfour.
 - (D) Cardiale.
 - (E) Sinn Fein.

Use Instruction B to answer questions number 40 to 42.

 During the 19st century Vereenigde Oost-Indische Compagnie established itself as major economic and political power on Java island.

BECAUSE

With the collapse of the Sultanate of Mataram, Vereenigde Oost-Indische Compagnie had become major economic power in Asia since 1600.

© 2016 Universitas Indonesia Page 5 of 10

41. The Renaissance in Europe was marked with the revival of ancient knowledge and the growth of the social and economy of the European people.

BECAUSE

The Renaissance had promoted inquisitiveness that led to social and industrial revolution.

42. Indonesia's success in organizing and getting the second position after Japan in the Asian Games in 1962 ended with IOC suspension of Indonesia.

BECAUSE

Indonesia disallowed the delegation of the People's Republic of China, Israel, and North Korea to participate in the 1962 Asian Games.

Use **Instruction C** to answer questions number 43 to 45.

- 43. Soemitro's idea to transform the colonial economy into national economy was implemented through trade sector in a form of...
 - (1) increased current expenditures.
 - (2) support and guidance for domestic entrepreneurs.
 - (3) expansion of economic bureaucracy.
 - (4) Benteng program.
- 44. Economic and political reforms taken place under Mikhail Gorbachev in 1985 impacted on the dissolution of the Soviet Union's Allies in Eastern Europe. Which of the following Eastern European countries were dissolved...
 - (1) Bulgaria.
 - (2) Cekoslovakia.
 - (3) Rumania.
 - (4) Jerman Timur.
- 45. The European colonies in Africa that declared their independence in the twentieth century were...
 - (1) Mesir.
 - (2) Liberia.
 - (3) Kongo.
 - (4) Ethiophia.

GEOGRAPHY

Use Instruction A to answer questions number 46 to 54.

- 46. In a topographic map with a scale of 1: 50.000 the feature of objects which are according to reality feature are...
 - (A) length of road and railway
 - (B) length and width of mainroads
 - (C) location and width of riverflow
 - (D) direction and width of irrigation canals
 - (E) form and area of lakes
- 47. Based on its genesis factors, the spatial pattern of soil fertility in the Nusa Tenggara Islands (Bali Timor) is....
 - (A) concentrated in the limestone area
 - (B) decreasing as it moves west
 - (C) increases towards the volcanic mountain areas
 - (D) decreases in alluvial sediment
 - (E) increases in accordance with elevation
- 48. The problem faced by rural inhabitants in the villages of East Nusa Tenggara Province in July to October is...
 - (A) access to marine resources
 - (B) inter-island accessability
 - (C) scarcity of clean water resources
 - (D) limited fertile soil
 - (E) limited area infrastructure
- 49. Indonesian straits that are used for international shipping routes are....
 - (A) Sunda and Madura Straits
 - (B) Bali and Lombok Straits
 - (C) Lombok and Makassar Straits
 - (D) Makassar and Sunda Straits
 - (E) Bali and Madura Straits
- 50. The heavy rainfall with short duration in tropical areas (Indonesia), includes a small area and is accompanied by thunderstorm, occurs in which area
 - (A) coastal low lands
 - (B) mountain valley
 - (C) highlands in the interior
 - (D) mountain slopes
 - (E) mountain sides

- 51. Spatial interaction occurring between the rural city area can be directly observed through....
 - (A) intensity of urban land use
 - (B) commuter from the outskirts to the centre urban
 - (C) newspaper distribution in a city
 - (D) the flow of ship passengers in the harbour
 - (E) money transfer through ATMs
- 52. The strategic role of Puncak (Bogor) area to the inhabitants of Jakarta is as....
 - (A) source of vegetables and fruits
 - (B) recreational destination
 - (C) supplier of working force
 - (D) marketing areas of industrial products
 - (E) centre of dairy products
- 53. Metropolitan cities that have developed into world megacities are located in....
 - (A) the west coast of Latin America
 - (B) the Amazon valley
 - (C) the south coast of Australia
 - (D) the Mississippi valley
 - (E) the east coast of China
- 54. In analysis of place vulnerability to tsunami, the existence of mangrove forests and beachridge are indicators of....
 - (A) disaster risk
 - (B) place sensitivity
 - (C) danger of disaster
 - (D) place capacity
 - (E) disaster vulnerability

© 2016 Universitas Indonesia Page 7 of 10

Use Instruction B to answer questions number 55 to 57.

55. Mountainous areas with an elevation of more than 1.200 m above sea-level and steep slopes holds high potential as a water reservoir zone.

BECAUSE

Elevated areas of over 1.200 m above sea-level receive the largest rainfall and are densely vegetated.

56. The characteristics of fauna in Indonesia is differentiated by the Wallace and Weber lines.

BECAUSE

Fauna in the area between the Wallace and Weber lines have similar characteristics to fauna in Australia.

57. Yogyakarta and Denpasar are cities in Indonesia capable of developing creative industry based on local cultural resources.

BECAUSE

The culture of batik and cloth-weaving has become a mass creative industry for the population of both Yogyakarta and Denpasar.

Use Instruction C to answer questions number 58 to 60.

- 58. The land price in the suburbs which is lower than in the city centre is an application of which concept
 - (1) interaction
 - (2) location
 - (3) interpolation
 - (4) accessibility
- 59. The low pressure trough in the South China Sea that develops into a tropical cyclone influences....
